

# Run Report

## Steamfest – Sunday 29 April 2012

A huge club turnout for today's Steamfest, we managed to secure the same parking as last year and ended up with 29 toranas on display (the biggest turnout apart from Toranafest). Unfortunately the clouds started to come over and eventually it started to drizzle rain at about lunchtime, the majority of club members decided to wait and see if the weather cleared up, I think a lot of Toranas got christened today! There's going to be a lot of cleaning and drying of cars tonight.

The trophy presentation was brought forward because a lot of people had started to head for home, no trophies were given to our club members but we think someone from our club had ticket "Black A9" for a lucky door prize but missed out as you had to be present (prize was an Auto Barn gift pack and a car battery).

Still raining, the little torries were determined to be the last to leave, so after all big torries had gone the last few remaining little torries then headed for home also.

All that attended had a good day,

Thanks  
Yvonne Yates

For the record,

14 little

15 big

43 Members

52 (approx) attendance

Ray keeping dry in Lou's XU1

The mud bath starting to appear in front of our cars....

Mel keeping his hair dry!!!

And Dane watching his torrie get wet in preparation for XU1's on the Mountain at Bathurst in October
